Education

Indian Institute of Information Technology, Pune

B.Tech in Electronics and Communication Engineering

Aug 2023 - May 2027

Projects

[PromptScout – Research Agent](#)

Tech Stack: LangChain, Python, LLMs, NVIDIA API, Custom Tooling, streamlit

- Integrated custom tools like duckduckgo-search and wikipedia crawling to get the most relevant outputs from the internet.
- Focused on precise extraction and response generation to emulate expert-like research behavior on research.
- Optimized for usability with a clean UI via Streamlit, enabling real-time querying and file saving.

[EvoMind](#)

- Built a multi-agent state machine with LangGraph routing each message to an **Therapist** or **logical** agent via structured message classification.
- Implemented real-time Knowledge Graph (Neo4j) ingestion and retrieval along with non blocking KG pipelines.
- Outlined extensibility roadmap: Web UI, Notion sync via MCP, speech I/O, fine-grained schema.

[PortalHelper – AI-Powered Information Retrieval Assistant](#)

Tech Stack: LangGraph, NVIDIA API, Custom Tooling, ChromaDB, Selenium, Ollama-Deepseek, FastAPI, Neo4j, Git

- Developed an advanced intelligent assistant to analyze web based data from the internet.
- Implemented real-time data extraction capabilities utilizing Selenium and provided structured insights through a knowledge graph.
- Integrated ChromaDB and LangGraph to deliver accurate semantic search results with contextual relevance..

Skills

- **Programming Languages** : C++, Python , javascript, Go, Java, HTMLCSS3, Shell.
- **FrameWorks and Libraries** : React, LangGraph, Flask, Streamlit, RAG, MCP, Selenium.
- **DataBase Systems**: MongoDB, ChromaDB, PostgreSQL, Mongoose, Postman.
- **DevOps & Version control**: Git, Github, VS Code, Neovim.

Achievements

- **Campus Ambassador**: Got Selected as Google Campus Ambassador.
- **Open Source Contributor**: Active participant in Open Source Connect India 2025, GirlScript Summer of Code 2024 and 2025, contributing to multiple GitHub projects focused on ML and algorithms.
- Secured **130th position** out of 10000 teams in Hackrx Hackthon.
- Research on Chili Dataset: Worked on classification of 5 different classes of chili based Disease classification(91% accuracy)..
- **Silver Medalist**: Inter-IIITs Football Tournament (2025).
- Achieved top 2% rank out of 11 lakh students in JEE Main's India
