

Mohd Bilal Khan

Bilal Khan |  +91 8192035071 |  github.com/Bilalk0804 |  [LinkedIn](#)

Education

Indian Institute of Information Technology, Pune

B.Tech in Electronics and Communication Engineering

Aug 2023 - May 2027

CGPA: 7.01

Experience

GSSOC Extended '24 Oct 2024 - Nov 2024

Selected among contributors for open-source programs based on interest and proposal. While I could not make active contributions during the program, it motivated me to build foundational skills in Git, GitHub, and collaborative development, which I later applied in building PromptScout and MCP servers of my own.

Projects

[PromptScout – Research Agent](#)

Tech Stack: LangChain, Python, LLMs, NVIDIA API, Custom Tooling, streamlit

- Integrated custom tools via LangChain to enable controlled web access and summarization using LLMs.
- Focused on precise extraction and response synthesis to emulate expert-like research behavior.
- Optimized for usability with a clean UI via Streamlit, enabling real-time querying and dynamic memory handling.

Chilli Classification Research

January 2025 – Ongoing

- Conducted in-depth research on the Chili dataset, focusing on accurate classification of chili varieties using machine learning techniques.
- Authored a research paper detailing data exploration, feature engineering, model selection, and evaluation.
- Boosted model accuracy from **78% to 91%** through advanced preprocessing, feature tuning, and algorithm optimization.

Skills: Machine Learning, Data Analysis, Python, Transfer Learning, Pandas, NumPy, Weights & Biases (WandB), LaTeX

Skills

- **Programming Languages :** Python, C , C++ , java, JavaScript, HTML/CSS
- **FrameWorks and Libraries :** Langchain, FastAPI, Streamlit
- **DataBase Systems:** MySQL
- **DevOps & Version control:** Git, Github, Gitlab

Achievements

- Research on Chili Dataset: Worked on classification of 5 different classes of chill based Disease classification using Transfer Learning and Wrote a Research paper.
- Silver Medalist, Inter-IIITs Football Tournament (2025).
- Selected as a contributor for GirlScript Summer of Code 2024
- 2 stars on codechef with max rating of 1436.
